

*** SPECIAL NOTICE ***

This is to inform you that the Town of Manchester by the Sea will be rehabilitating the sewer mains in your neighborhood using a method call C.I.P.P. Corp® PIPE, Cured-in-Place Pipelining. This system will provide a new, joint-less sewer pipe for your area that minimizes root and water infiltration problems, improves flow, and provides for a more structural sound pipe without the need for excavation.

This work will occur during the following days

FROM: <u>7:00 AM</u>	TO: <u>7:00 PM</u>	FROM: <u>Wed, May 13, 2020</u>	TO: <u>Thu, May 28, 2020</u>
TIME	TIME	DAY/DATE	DAY/DATE

On residential streets, the set-up of equipment may cause some adjustments in parking and neighborhood driving patterns. However, every effort will be made to make this inconvenience as slight as possible.

During certain phases of the operation, you may detect an odor. Odors are most likely to occur in houses or buildings with dry or non-existent traps. In most cases, any odors can be minimized by pouring several gallons of water down your sinks, showers, toilets, etc.; and by opening your windows. Any odors originating from the sewer main work are non-toxic.

If you have any questions or concerns during the course of our installation period; please do not hesitate to ask for the Site Supervisor or Crew Foreman at the job site.

If you have any concerns regarding this project or for more information regarding the pipe rehabilitation process or any odor you might experience, please contact any one of the following during business hours, Monday-Friday.

Green Mountain Pipeline Services, LLC: (802) 763-7022
Site Superintendent: **Zack Scott (802) 316-0068**

Thank you for your cooperation.
