Join us for a virtual discussion to learn about possibilities and share your thoughts!

The Town is studying the potential for creating a mixed use neighborhood in the Limited Commercial District on upper School Street north of Route 128.

This public visioning session will begin with an overview of the area and the potential for a 40R zoning district. Attendees will be invited to participate through live polling and a live question and answer session. Afterwards, participants will be asked to complete a survey to share their priorities for the area, including what types of uses should be supported, how the new neighborhood should look and feel, and how it could connect to and interact with the greater community.
