

MANCHESTER MASTER PLAN
A Stronger Manchester Starts With Us

Master Plan Community Open House

Wednesday, December 5, 2018: 6-8 PM at MERHS Dining Hall

FINAL COMMUNITY REVIEW AND DISCUSSION

Manchester Master Plan

A Vision for Manchester-by-the-Sea

In 2027, Manchester-by-the-Sea embodies the character, beauty and resilience of a small New England town.

Our fiscally responsible and transparent Government manages growth and development to honor the town's authentic character and balance revenues to sustain public services and infrastructure.

Accessible open space and well-managed green spaces, harbor, shoreline, and beaches reflect the town's long-term commitment to its natural resources.

Balanced and diverse housing options, a strong local economy, walkable neighborhoods, a dynamic downtown, and an exceptional public school system are the foundation that we have built for our healthy community.

Respect for the ideas and contributions of residents, volunteers, and Town employees is a fundamental principle for working together and sustaining community spirit.

In **2016** the Community Developed a Vision for Manchester-by-the-Sea

In **2017** the Community identified goals to:

- Increase Town Revenues to better care for public infrastructure and facilities
- Create more housing options
- Preserve natural resources and community character
- Improving walkability
- Communicate more effectively
- And more.....

In **2018** the Community showed support for Recommendations to help meet those goals

DEC 5th, 2018 you're invited to a final review of the Manchester Master Plan

To view the draft Master Plan and its Recommendations visit:
